

SECTION 01

Twelve checks every solar quote should pass

Use this free check before comparing headline prices. If several items are missing, request the evidence in writing before signing or paying a deposit.

[] 1. Property-specific layout

Panel positions, roof faces, pitch, shading and obstructions match the home.

[] 2. Exact equipment

Panel, inverter, optimiser and battery model numbers are stated.

[] 3. Reconciled system size

Panel count x wattage agrees with the quoted array kWp.

[] 4. Transparent generation

Annual kWh and the roof-specific method are supplied.

[] 5. Visible savings inputs

Self-use, export, import rate and export rate are separate.

[] 6. Separate battery case

Usable capacity, power, backup, warranty and incremental benefit are clear.

[] 7. Complete installed price

Labour, equipment, VAT, scaffolding and electrical work are itemised.

[] 8. Explicit exclusions

Allowances, provisional sums and extra-work rates are written down.

[] 9. Grid and permissions

DNO route, export limit and permission responsibilities are clear.

[] 10. Payment protection

Deposit protection and staged-payment triggers are documented.

[] 11. Contract protections

Cancellation, variations, complaints, ADR and after-sales routes are supplied.

[] 12. Handover promise

Certificates, warranties, monitoring, manuals and snagging are listed.
